FALKLAND ISLANDS

'fol-klənd 'i-lənds

LOCATION — A group of islands about 300 miles east of the Straits of Magellan at the southern limit of South America
GOVT. — British Crown Colony
AREA — 4,700 sq. mi.
POP. — 2,607 (1996)
CAPITAL — Stanley

Dependencies of the Falklands are South Georgia and South Sandwich. In March 1962, three other dependencies — South Shetland Islands, South Orkneys and Graham Land—became the new separate colony of British Antarctic Territory. In 1985 South Georgia and the South Sandwich Islands became a separate colony.

12 Pence = 1 Shilling
20 Shillings = 1 Pound
100 Pence = 1 Pound (1971)

Catalogue values for unused stamps in this country are for Never Hinged items, beginning with Scott 97 in the regular postage section, Scott B1 in the semi-postal section, Scott J1 in the postage due section, Scott 1L1 in Falkland Island Dependencies regular issues, Scott 1LB1 in Falkland Island Dependencies semi-postals, and Scott 2L1, 3L1, 4L1, 5L1 in the Issues for Separate Islands.

Values for unused stamps are for examples with original gum as defined in the catalogue introduction.

Nos. 1-4, 7-8, and some printings of Nos. 5-6, exist with straight edges on one or two sides, being the imperforate margins of the sheets. This occurs in 24 out of 60 stamps. Catalogue values are for stamps with perforations on all sides.

FIJI

ˈfē-ˌjē

LOCATION — Group of 332 islands (106 inhabited) in the South Pacific Ocean east of Vanuatu
GOVT. — Independent nation in British Commonwealth
AREA — 7,078 sq. mi.
POP. — 812,918 (1999 est.)
CAPITAL — Suva

A British colony since 1874, Fiji became fully independent in 1970.

12 Pence = 1 Shilling
20 Shillings = 1 Pound
100 Cents = 1 Dollar (1872-74, 1969)

Syncopated Perforations

Type A (1st stamp #873): On shorter sides, the seventh hole from the larger side is an oval hole equal in width to three holes.

Catalogue values for unused stamps in this country are for Never Hinged items, beginning with Scott 137 in the regular postage section and Scott B1 in the semi-postal section.

Values for unused stamps are for examples with original gum as defined in the catalogue introduction except for Nos. 1-10 which are valued without gum. Additionally, Nos. 1-10 are valued with roulettes showing on two or more sides, but expect small faults which do not detract from the appearance of the stamps. Very few examples of Nos. 1-10 will be found free of faults and these will command substantial premiums.

This service was established by the *Fiji Times,* a weekly newspaper, for the delivery of the newspaper. Since there was no postal service to the other islands, delivery of letters to agents of the newspaper on the islands was offered to the public.

Nos. 1-5 were printed in the same sheet, one horizontal row of 6 of each (6p, 1sh, 1p, 3p). Nos. 6-10 were printed from the same plate with three 9p replacing three 3p.

Most used examples have pen cancels.

Up to three sets of imitations exist. One on pink laid paper, pin-perforated, measuring 22½x16mm. Originals measure 22½x18½mm. A later printing was made on pink wove paper.

Forgeries also exist plus fake cancellations.

LOCATION — Northern Europe bordering on the Gulfs of Bothnia and Finland
GOVT. — Republic
AREA — 130,119 sq. mi.
POP. — 5,147,349 (1997)
CAPITAL — Helsinki

Finland was a Grand Duchy of the Russian Empire from 1809 until December 1917, when it declared its independence.

100 Kopecks = 1 Ruble
100 Pennia = 1 Markka (1866)
100 Cents = 1 Euro (2002)

Catalogue values for unused stamps in this country are for Never Hinged items, beginning with Scott 220 in the regular postage section, Scott B39 in the semi-postal section, Scott C2 in the air-post section, Scott M1 in the military stamp section, and Scott Q6 in the parcel post section.

Unused stamps are valued with original gum as defined in the catalogue introduction except for Nos. 1-3B which are valued without gum. Used values for Nos. 1-3B are for pen-canceled copies. Very fine examples of the serpentine rouletted issues, Nos. 4-13c, will have roulettes cutting the design slightly on one or more sides and will have all "teeth" complete and intact. Stamps with roulettes clear of the design on all four sides are extremely scarce and sell for substantial premiums.

FIUME

ˈfyü-ˌmā

LOCATION — A city and surrounding territory on the Adriatic Sea
GOVT. — Formerly a part of Italy
AREA — 8 sq. mi.
POP. — 44,956 (estimated 1924)

Formerly a port of Hungary, Fiume was claimed by Yugoslavia and Italy following World War I. During the discussion, the poet Gabriele d'Annunzio organized his legionnaires and seized Fiume, together with the islands of Arbe, Carnaro and Veglia, in the name of Italy. Yugoslavia recognized Italy's claim and the city was annexed in January, 1924.

100 Filler = 1 Korona
100 Centesimi = 1 Corona (1919)
100 Centesimi = 1 Lira

See note on FIUME-KUPA Zone, Italian Occupation, after Yugoslavia No. NJ22.

No. 4, which lacks gum, was not issued due to a rate change to 25c after the stamps were prepared.

An ungummed sheet of No. 8c was found in 1895 among the effects of Anatole A. Hulot, the printer. It was sold to Ernest Vervelle, a Parisian dealer, by whose name the stamps are known.

See Nos. 329-329e, 612-613, 624.

Nos. 1, 4a, 6a, 7 and 13 are of similar designs and colors to French Colonies Nos. 9, 11, 12, 14, and 8. There are numerous shades of each. Identification by those who are not experts can be difficult, though cancellations can be used as a guide for used stamps. Because of the date of issue the Colonies stamps are similar in shades and papers to the perforated French stamps,

Nos. 23a, 54, 57-59, and are not as clearly printed. Except for No. 13, unused, the French Colonies stamps sell for much less than the values shown here for properly identified French versions.

Expertization of these stamps is recommended.

On the lithographed stamps, except for type I of the 20c, the shading on the cheek and neck is in lines or dashes, not in dots. On the typographed stamps the shading is in dots. The 2c, 10c and 20c (types II and III) occur in two or more types. The most easily distinguishable are:

2c — Type A. To the left of and within the top of the left "2" are lines of shading composed of dots.

2c — Type B. These lines of dots are replaced by solid lines.

10c — Type A. The inner frame lines are of the same thickness as all other frame lines.

10c — Type B. The inner frame lines are much thicker than the others.

Three Types of the 20c.

A9 — The inscriptions in the upper and lower labels are small and there is quite a space between the upper label and the circle containing the head. There is also very little shading under the eye and in the neck.

A10 — The inscriptions in the labels are similar to those of the first type, the shading under the eye and in the neck is heavier and the upper label and circle almost touch.

A11 — The inscriptions in the labels are much larger than those of the two preceding types, and are similar to those of the other values of the same type in the set.

In the 10c and 25c values, the first printings show the numerals to have been impressed by a second operation, whereas, in later printings, the numerals were inserted in the plates. Two operations were used for all 20c and 30c, and one operation for the 15c.

No. 114 was issued precanceled only. Values for precanceled stamps in first column are for those which have not been through the post and have original gum. Values in the second column are for postally used, gumless stamps.

The 10c and 35c, type I, were slightly retouched by adding thin white outlines to the sack of grain, the underside of the right arm and the back of the skirt. It is difficult to distinguish the retouches except on clearly-printed copies. The white outlines were made stronger on the stamps of type II.

Stamps of types A16, A18, A20 and A22 were printed in 1916-20 on paper of poor quality, usually grayish and containing bits of fiber. This is called G. C. (Grande Consommation) paper.

Besetztes Gebiet Nordfrankreich

These three words, in a rectangular frame covering two stamps, were hand-stamped in black on Nos. 267, 367 and 369 and used in the Dunkerque region in July-August, 1940. The German political officer of Dunkerque authorized the overprint. The prevalence of forgeries and later favor overprints makes expertization mandatory.

The Chinese characters surcharged on Nos. 18-33 are the Chinese equivalents of the French values and therefore differ on each denomination. Another printing of these stamps was made in 1904 which differs from the first one principally in the size and shape of the letters in "CHINE," particularly the "H" which is much thinner in the second printing. Values are for the less expensive variety. Many varieties of surcharge exist.

Stamps of Indo-China, 1892-1906, Surcharged in Red or Black

A second printing of the 1906 surcharges of Canton, Hoi Hao, Kwangchowan, Mongtseu, Packhoi, Tong King and Yunnan Fou was made in 1908. The inks are grayish instead of full black and vermilion instead of carmine. Values are for the cheaper variety which usually is the second printing.

The 4c and 50c of the 1892 issue of Indo-China are known with this surcharge and similarly surcharged for other cities in China. The surcharges on these two stamps are always inverted. It is stated that they were irregularly produced and never issued.

REUNION

LOCATION — An island in the Indian Ocean about 400 miles east of Madagascar
GOVT. — Department of France
AREA — 970 sq. mi.
POP. — 490,000 (est. 1974)
CAPITAL — St. Denis

The colony of Réunion became an integral part of the Republic, acquiring the same status as the departments in metropolitan France, under a law effective Jan. 1, 1947.

On Jan. 1, 1975, stamps of France replaced those inscribed or overprinted "CFA."

100 Centimes = 1 Franc

Catalogue values for unused stamps in this country are for Never Hinged items, beginning with Scott 224 in the regular postage section, Scott B15 in the semi-postal section, Scott C18 in the airpost section, and Scott J26 in the postage due section.

For French stamps inscribed "Reunion" see Nos. 949, 1507.

FRENCH COLONIES

'french 'kä-lə-nēz

From 1859 to 1906 and from 1943 to 1945 special stamps were issued for use in all French Colonies which did not have stamps of their own.

100 Centimes = 1 Franc

Catalogue values for unused stamps in this country are for Never Hinged items, beginning with Scott B1 in the semi-postal section and Scott J23 in the postage due section.

Perforations: Nos. 1-45 are known variously perforated privately.

Gum: Many of Nos. 1-45 were issued without gum. Some were gummed locally.

Reprints: Nos. 1-7, 9-12, 24, 26-42, 44 and 45 were reprinted officially in 1887. These reprints are ungummed and the colors of both design and paper are deeper or brighter than the originals. Value for Nos. 1-6, $20 each.

FRENCH CONGO

'french 'käŋ-ˌgō

LOCATION — Central Africa
GOVT. — French possession

French Congo was originally a separate colony, but was joined in 1888 to Gabon and placed under one commissioner-general with a lieutenant-governor presiding in Gabon and another in French Congo. In 1894 the military holdings in Ubangi were attached to French Congo, and in 1900 the Chad military protectorate was added. Postal service was not established in Ubangi or Chad, however, at that time. In 1906 Gabon and Middle Congo were separated and French Congo ceased to exist as such. Chad and Ubangi remained attached to Middle Congo as the joint dependency of "Ubangi-Chari-Chad," and Middle Congo stamps were used there.

Issues of the Republic of the Congo are listed under Congo People's Republic (ex-French).

FRENCH EQUATORIAL AFRICA

'french ˌē-kwə-'tȯr-ē-əl 'a-fri-kə

LOCATION — North of Belgian Congo and south of Libya
GOVT. — French Colony
AREA — 959,256 square miles
POP. — 4,491,785
CAPITAL — Brazzaville

In 1910 Gabon and Middle Congo, with its military dependencies, were politically united as French Equatorial Africa. The component colonies were granted administrative autonomy. In 1915 Ubangi-Chari-Chad was made an autonomous civilian colony and in 1920 Chad was made a civil colony. In 1934 the four colonies were administratively united as one colony, but this federation was not completed until 1936. Each colony had its own postal administration until 1936. The postal issues of the former colonial subdivisions are listed under the names of those colonies.

In 1958, French Equatorial Africa was divided into four republics: Chad, Congo, Gabon and Central African Republic (formerly Ubangi-Chari).

Stamps other than Nos. 189-192 are inscribed with "Afrique Equatoriale Francaise" or "AEF" and the name of one of the component colonies are listed under those colonies.

100 Centimes = 1 Franc

Catalogue values for unused stamps in this country are for Never Hinged items, beginning with Scott 142 in the regular postage section, Scott B8A in the semi-postal section, Scott C17 in the airpost section, and Scott J12 in the postage due section.

AREA — 1,522 sq. mi.
POP. — 242,073 (1999 est.)
CAPITAL — Papeete

In 1903 various French Establishments in the South Pacific were united to form a single colony. Most important of the island groups are the Society Islands, Marquesas Islands, the Tuamotu group and the Gambier, Austral, and Rapa Islands. Tahiti, largest of the Society group, ranks first in importance.

100 Centimes = 1 Franc

CAPITAL — Bamako

In 1899 French Sudan was abolished as a separate colony and was divided among Dahomey, French Guinea, Ivory Coast, Senegal and Senegambia and Niger. Issues for French Sudan were resumed in 1921.

From 1906 to 1921 a part of this territory was known as Upper Senegal and Niger. A part of Upper Volta was added in 1933. See Mali.

100 Centimes = 1 Franc

FRENCH WEST AFRICA

'french 'west 'a-fri-kə

LOCATION — Northwestern Africa
GOVT. — French colonial administrative unit
AREA — 1,821,768 sq. mi.
POP. — 18,777,163 (est.)
CAPITAL — Dakar

French West Africa comprised the former colonies of Senegal, French Guinea, Ivory Coast, Dahomey, French Sudan, Mauritania, Niger and Upper Volta.

In 1958, these former colonies became republics, eventually issuing their own stamps. Until the republic issues appeared, stamps of French West Africa continued in use. The Senegal and Sudanese Republics issued stamps jointly as the Federation of Mali, starting in 1959.

Catalogue values for all unused stamps in this country are for Never Hinged items.

Many stamps other than Nos. 65-72 and 77 are inscribed "Afrique Occidentale Francaise" and the name of one of the former colonies. See listings in these colonies for such stamps.

Illustrated Identifier

This section pictures stamps or parts of stamp designs that will help identify postage stamps that do not have English words on them.

Many of the symbols that identify stamps of countries are shown here as well as typical examples of their stamps.

See the Index and Identifier on the previous pages for stamps with inscriptions such as "sen," "posta," "Baja Porto," "Helvetia," "K.S.A.", etc.

Linn's Stamp Identifier is now available. The 144 pages include more 2,000 inscriptions and over 500 large stamp illustrations. Available from Linn's Stamp News, P.O. Box 29, Sidney, OH 45365-0029.

1. HEADS, PICTURES AND NUMERALS

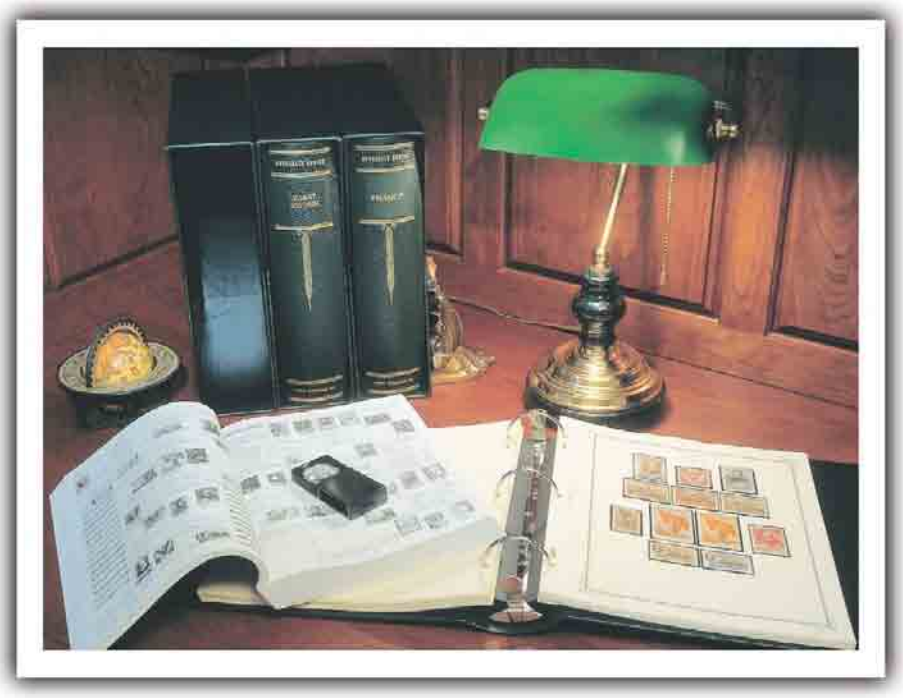
Specialty Series



Scott Publishing Co. produces album pages for more than 120 countries.
Scott Specialty pages are renowned for their quality and detail.
There are spaces for every major variety of postage stamp
within each country or specialty area.

Each space is identified by Scott number and many of the spaces are illustrated.
Pages are printed on one side only on chemically neutral paper
that will not harm your stamps.

Scott Specialty series pages are sold as page units only.
Binders and slipcases are sold separately.

For more information on the entire line of Scott products visit your favorite stamp dealer
or go online at:
